Data Summary

Dataset name: COVID-19 Hospital Needs and Death Projections

Summary:

IHME has produced forecasts which show hospital bed use, need for intensive care beds, and ventilator use due to COVID-19 based on projected deaths for the United States, at the country and subnational level, and countries in the European Economic Area (EEA). Forecasts at the subnational level are included for three EEA countries: Germany, Italy, and Spain. These projections are produced by models based on observed death rates from COVID-19, and include uncertainty intervals. They incorporate information about social distancing and other protective measures and are being updated daily with new data. These forecasts were developed in order to provide hospitals, policy makers, and the public with crucial information about how expected need aligns with existing resources, so that cities and countries can best prepare.

Variable Information

Variable	Variable Description
location_name	Name of the state
date	Date
allbed_mean	Mean covid beds needed by day
allbed_lower	Lower uncertainty bound of covid beds needed by day
allbed_upper	Upper uncertainty bound of covid beds needed by day
ICUbed_mean	Mean ICU covid beds needed by day
ICUbed_lower	Lower uncertainty bound of ICU covid beds needed by day

ICUbed_upper Upper uncertainty bound of ICU covid beds needed by day InvVen_mean Mean invasive ventilation needed by day InvVen_lower Lower uncertainty bound of invasive ventilation needed by deaths_mean Mean daily covid deaths deaths_lower Lower uncertainty bound of daily covid deaths deaths_upper Upper uncertainty bound of daily covid deaths deaths_upper Upper uncertainty bound of daily covid deaths deaths_upper Upper uncertainty bound of hospital admissions by day admis_lower Lower uncertainty bound of hospital admissions by day newICU_mean Mean number of new people going to the ICU by day newICU_lower Lower uncertainty bound of the number of new people going to the ICU by day newICU_upper Upper uncertainty bound of the number of new people going to the ICU by day totdea_mean Mean cumulative covid deaths totdea_lower Lower uncertainty bound of cumulative covid deaths totdea_upper Upper uncertainty bound of cumulative covid deaths totdea_upper Upper uncertainty bound of bedover (above) bedover_upper Upper uncertainty bound of bedover (above) Lower_uncertainty bound of bedover (above) icuover_mean [covid ICU beds needed] - ([total ICU capacity] - [average ICU upper uncertainty bound of bedover (above)
